# NOBBY GETS A NEW SET OF WHEELS by Emma Buckley

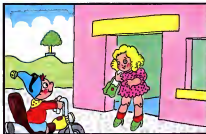

1. What a rumpus in Toytown! Nobby's little yellow car was roaming the streets without a driver! Everyone ran to get out of the way.

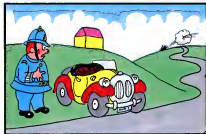

2. "What's going on?" asked P.C. Plop. "I'm looking for Nobby!" hooted the car. "He hasn't taken me out of the garage for weeks!"

3. Suddenly, the yellow car spun around as a strange figure roared past at great speed. It was Nobby on a big, fast motorcycle!

4. He pulled up outside the house of Bibi, the fashionable doll who'd moved into Toytown recently. "Let's split and find some fun, baby!" said Nobby.

5. The yellow car honked sadly. "You can't blame him for wanting to act grown-up," said P.C. Plop. "After all, he is about forty years old!"

6. But their ride wasn't enjoyable! Nobby had to keep stopping to wind up the bike! "That's the last time I buy from the Toytown garage!" sighed Nobby.

## DO-IT-YOURSELF WORKING CUSTOMISED MOTORBIKE!

## INSTRUCTIONS

2. Stick page onto that card and cut out all components.
  3. Fold chassis (A) along line (B) and stick together.
  4. Likewise fold wheels (C) and (D) along lines (E) and (F) and stick.
  5. Place holes at (G), (H), (I) and (J). Attach wheels by poking using matchstick through holes (C) and (D) (back wheels) and holes (E) and (F) (front wheels).
  6. GOOSE! (or go?) You should **NOT** have stuck together wheelrims (K) and (L), so that you could slot the wheels between them. *Sigh* Never mind.
  7. Attach handspanner/light attachment (M) to the axle. Also attach clutch (N) at attachment point (O). (M) attach the attachment with anything you like, no long as it doesn't wobble.
  8. Fit inside engine fitting (P) to fitting slot (T) with fitting bolt (R). Dito with fitting (Q), fitting slot (U) and fitting bolt (S).
  9. Wrap string cover (V) around a piece of string (not supplied).
  10. Thread covered string through holes (W) and be sure to screw on back of a Harley-Davidson Turbo-Charger Knucklehead Roadster or similar (not supplied).
  11. You now have a ready-to-use customised bike.
- (NOTE – If the parts don't fit together, you'll have to draw your own. Tell you it was do-it-yourself!)
